

**Model: 16340 3,7v 650mah (16x34mm)**

№	Параметр / Parameter	Значение ( Value )	
1	Nominal capacity	650mAh	After standard charging battery, 0.2C constant current discharge to 2.75V minimum capacity
2	Nominal resistance	100mΩ	1kHz impedance values
3	The nominal voltage	3.7V	After standard charging battery, 0.2C average voltage constant current discharge

4	Discharge voltage	2.75V	
5	Maximum charging voltage	4.20V	
6	Standard charging time	5.5h	0.5C constant current charging to 4.20V, and 4.20V voltage charge to current $\leq 0.05C$
7	Fast charging time	2.0h	0.5C constant current charging to 4.20V, and 4.20V constant voltage to the charging current $\leq 0.05C$
8	The maximum charging current	1C	
9	Maximum discharge current	1C	
10	Working temperature Charge	0~+45°C	
11	Working temperature Charge	-20~+60°C	
12	Storage Temperature	-20~+45°C	
13	Typical weight	18g
